

# Climate Action Revenue Incentive Program (CARIP) Public Reporting - Carbon Neutral Progress Survey 2014

---

## MEASURING CORPORATE GHG EMISSIONS

Many local governments use SMARTTool, a web-based inventory and reporting tool, to track and measure their corporate GHG emissions. If your local government has chosen to use another inventory tool, please make sure that you are using the same methodologies and emission factors as SMARTTool. The most recent edition of the B.C. Best Practices Methodology for Quantifying Greenhouse Gas Emissions provides this information and is available on the BC Climate Action Toolkit.

### Q1. Did you measure your local government's corporate GHG emissions in 2014?

Yes

## REPORTING CORPORATE GHG EMISSIONS AND REDUCTIONS

A local government's Total Corporate GHG Emissions include direct and contracted GHG emissions that result from the delivery of "traditional services".

Traditional services - services that are commonly provided by a majority of local governments and include: administration and governance; drinking, storm and waste water; solid waste collection, transportation and diversion; roads and traffic operations; arts, recreation and cultural services; and fire protection.

Direct GHG emissions - emissions that are generated by the delivery of a traditional service by local government staff or a subsidiary organization.

Contracted GHG emissions - emissions that are generated by the delivery of traditional services by contractors on behalf of local governments.

### Q2. What were your local government's 2014 corporate GHG emissions from services delivered directly by your local government?

(in tonnes of carbon dioxide-equivalent, tCO<sub>2</sub>e)

201.9

**Q3. What were your local government's 2014 corporate GHG emissions from contracted services?**

(in tonnes of carbon dioxide-equivalent, tCO<sub>2</sub>e)

**48.0**

**Total Corporate GHG Emissions for 2014 = 249.9 tCO<sub>2</sub>e**

**Q4. If applicable, please report the 2014 GHG emissions reductions being claimed from Option 1 GHG Reduction Projects.**

**Not Applicable**

**Reductions from Option 1 Projects = 0.0 tCO<sub>2</sub>e**

**Q5. If applicable, please list the names of and report the 2014 GHG emissions reductions being claimed from Option 2 GHG Reduction Projects.**

**Not Applicable**

**Reductions from Option 2 Projects = 0 tCO<sub>2</sub>e**

**Q6. If applicable, please report the number of offsets you purchased from an offset provider for the 2014 reporting year.**

**249.9**

**Q7. If you have purchased offsets, please identify the name of your offset provider.**

**Offsetters**

**Total Reductions from Projects and Offsets for 2014 = 249.9**

### **Corporate GHG Emissions Balance**

Your local government's Corporate GHG Emissions Balance is the difference between total corporate GHG emissions (direct + contracted emissions) and the GHG emissions reduced through GCC Option 1 and Option 2 projects and/or the purchase of offsets.

**Corporate GHG Emissions Balance for 2014 = 0.0**

If your Corporate GHG Emissions Balance is negative or zero, your local government is carbon neutral. Congratulations!

**Q8. Are you familiar with the Community Energy and Emissions Inventory (CEEI)?**

**Yes**

### **GREEN COMMUNITIES COMMITTEE (GCC) CLIMATE ACTION RECOGNITION PROGRAM**

The joint Provincial-UBCM Green Communities Committee (GCC) is pleased to be continuing the Climate Action Recognition Program again this year. This multi-level program provides the GCC with an opportunity to review and publicly recognize the progress and achievements of each Climate Action Charter (Charter) signatory. Recognition is provided on an annual basis to local governments who demonstrate progress on their Charter commitments, according to the following:

- Level 1 - Progress on Charter Commitments (L1): for local governments who demonstrate progress on fulfilling one or more of their Charter commitments
- Level 2 - Measurement (L2): for local governments who have measured their Corporate GHG Emissions for the reporting year and demonstrate that they are familiar with the Community Energy and Emissions Inventory (CEEI)
- Level 3 - Achievement of Carbon Neutrality (L3): for local governments who achieve carbon neutrality in the reporting year

**Q11. Based on your local government's 2014 CARIP Public Report, please check the GCC Climate Action Recognition Program level that best applies:**

**Level 3 - Achievement of Carbon Neutrality**

## LOCAL GOVERNMENT INFORMATION

Variable	Response
LOCAL GOVERNMENT INFORMATION   Name of Local Government	Oliver, Town of
LOCAL GOVERNMENT INFORMATION   Name of member Regional District (RD)	Okanagan-Similkameen
LOCAL GOVERNMENT INFORMATION   Regional Growth Strategy (RGS) in your region	Yes
LOCAL GOVERNMENT INFORMATION   Population	0-4,999
